Vedic Math

Math does not have to be a dreaded subject, full of drudgery and tedium. With knowledge of the right tools and techniques it can be fun and stimulating. Traditional methods of arithmetic taught in schools are tedious and error prone. Vedic Math methods are faster and include error checking in every step! Answers are formed using a "digit by digit" approach. Plus, every digit is checked as soon as it is computed. These two ideas ensure that correct final answers are obtained efficiently and reliably. At Little Champs we encourage kids to continue using traditional methods for problem solving, but show them how to use Vedic Math for checking and verifying their answer for more accuracy.

Schedule: Wednesday 5-6 PM
Session starting soon..

Offered by Dr. Dan Rosenthal (Ph. D) of DR Educational Services

Class fees: \$200 (10 sessions)

Material fees: \$25
